

**Did You Know** that all the building fountains have a new look? All the fountains were aging terribly, they were crumbling, parts were unrepairable, and they could no longer hold water. Thanks to a handful of amazing volunteers the fountains have taken on a new life. Take a walk around and check them out.

**Did You Know** that 7 pine trees were removed from the property? Losing trees is always sad, however, the pine trees unfortunately some were sick and caused severe damage to the water pipes. Just recently, by building 5 there was a huge water leak. The cause was a pine tree root that broke the main irrigation line. Sorry to see them go, but it's time.

**Did You Know** that boxes can not break down themselves? The recycling area continues to have problems with residents not breaking down their boxes. Boxes have been taken out of the recycling bin and thrown on the ground to make room for other recycling items. Then the boxes lay on the ground, then more residents add to the recycling on the ground and no one takes the time to properly recycle these items back in the bin. The garbage man does not pick items off the ground. Many of the times it's Mike and he shouldn't be taking his time away for his work to break them down. So PLEASE break down your boxes, don't take items out of the bin and throw them on the ground, PLEASE be helpful in keep the recycling area clean!!!! It's takes a village to make things work!!! Please do your part!
