

Good day to all of you La Solana Residents! We hope all of you permanent residents and snowbirds are enjoying the summer wherever you are! Surviving the heat has been a challenge here; however, overall, it hasn't been too bad yet.

DID YOU KNOW The Clubhouse renovation project is going well.

The demolition is done and now it's time to put things back together. There was a pod located in front of the Clubhouse for about a month and was recently unloaded. In looking through the windows of the Clubhouse there is furniture, boxes, tables and more in the center waiting to find its place.

The new tile and entry way is completely covered up from wall to wall to protect it. Majority of the new paint is done, but as you know there are areas needing touch up, the new carpet is in, the bathrooms what a remarkable change everything is brand new, the mirrors and lighting provide an elegance to the new look, quartz counter tops throughout, an elegant new chandelier that centers the main room, and the list goes on.

The Renovation Committee is so excited about the transformation of the Clubhouse and can't wait for everyone to see. The completion date is still on target for the end of August, there have been several hiccups to overcome; however, overall, the renovation is going smoothly with the support of Arlette and her crew. Something to look forward to there will be a big Grand Opening Party to Celebrate the completion of the Clubhouse.

Other newsy items to update everyone, Wyverd has installed internet in the Clubhouse and pool area, Kings 3 is in the process of installing wireless phones in the elevators and finally we were able to find a company to make have new entrance direction sign.

Plaza 6/7 as you all know, where the new fountains are will soon be adding more benches to make it a circular area for residents to converse and enjoy the calming sound of the fountains. Carescape's work is never done, new plants will be added and trees that are currently struggling will be replaced. No planting will be taking place until October when it cools off!!

That's all for now, look for the next "DID YOU KNOW"!
